- ngaue fakataha moe NEMO ki hono 'a'ahi 'a e langa fakalalakaka mo e fakaakeake 'oku fakahoko he vahe fonua

Appendix 1: Roles of the Line Ministries within the District Emergency Management Committee

Agency	Roles in Prevention/Mitigation	Roles in Preparedness	Roles in Response	Roles in Rehabilitation and Recovery
Office of the Governor	Coordinate risk assessment in liaison with district and town officers	Organise meeting of the Vava'u District Emergency Management Committee	Activate the EOC as deemed necessary or as directed by NEMO	Assist NEMO in carrying out detail sectoral assessment
	Identify capital development that will reduce the vulnerability through the district and town officers	Coordinate the development of the village emergency plan in close liaison with District and Town Officers	Coordinate emergency operations and Rapid Assessment	Provide relevant information to NEMO for rehabilitation and recovery
	Propose capital development that will reduce the vulnerability to the Vava'u Development Committee	Coordinate training and awareness programs in liaison with other members of VDEMC and NEMO	Coordinate distribution of humanitarian assistance	
		Provide space for an Emergency Operation Centre (EOC)		
		Coordinate development of the EOC standard operating procedure		
Tonga Police Service	Arrange with the district and town officers meetings with the communities in times of cyclone warnings and advise the people about the evacuation centres and what they should do to protect their lives and properties	Use the police loudspeakers to inform the public of the cyclone warnings Prepare water, food, radio and non-food items for the people in evacuation centres	Advise the public to stay in houses and also to gather to evacuation centres/sites Assist in evacuating of people to evacuation sites	Help in clearing damages done by the disaster Assist in finding missing persons Contribute in the post impact assessment Assist in distributing of reliefs
His Majesty Armed Forces	Provide HF Radio network as alternative back-up resource Train of officers	Clear tress that may stop traffic Standby 24/7 until state of emergency is deactivated	Assist in evacuating evacuees Support in helping of injured and affected people Provide officers to the EOC centre	Support relief distributions Support search and rescue operations Support clearing damaged infrastructures
Tonga Fire & Emergency Service	Arrange with the district and town officers meetings with the communities in times of cyclone warnings and advise the people about the evacuation centres and what they should do to protect their lives and properties	Advise the public to prepare candles, food, radios and water when a cyclone warning occurs Advise public to stay in house during the cyclone	Standby for any calls regarding people injured Assist in evacuating people to evacuation sites	Contribute to post impact assessment Assist in clearing the damages done by the disaster Assist in distributing relief aids Support search and rescue operations

Ministry of Health	Carry out survey on water supplies and likely contamination sources	Decontaminate water supplies	Survey evacuation halls to see the capacity of the hall, water supply, sewerage system, pest control	Awareness programs on water contamination On-going medical and health services required during the recovery period to reserve the general health of the community Food and water testing
	Carry out survey on stagnant water sources and breeding grounds for mosquito carrying diseases	Community awareness programs on removing stagnant water sources around homes and properties	Keep evacuation areas free from contamination of water borne diseases	Continuous monitoring of health hazards - fecal contamination, bacterial infections etc
	Food Regulation Policy - examine imported goods for expiry dates and restaurant kitchens	Remove expired goods from shop shelves	Ensure safety of food supply from aid donors	Monitor and evaluate imported goods and local stores and restaurants
	Inspect yachts, cruise ships, airlines along with Customs and Quarantine to test for foreign vectors	Quarantine any suspected foreign vectors on board incoming vessels	Contain contamination	Monitor and evaluate all incoming vessels
Ministry of Agriculture, Forestry	monthly meeting towards the agriculture show to plant crops for the show and consumption	Survey plantations and livestock (current stats)	Inform the main office that there is a cyclone and wait for instructions on what to do	Carry out sector assessment for reporting to head office and relevant line ministries
	encourage organic farming and move away from pesticides	Agricultural Household Survey	Call the staff to tidy and pack up MAFF assets	Provide relevant data to NEMO for rehabilitation and recovery
	biogas production (Leimatu'a and Feletoa)	Resilient gardening workshop	Attend Governor's Office Head of Department meeting and follow directives given	Distribute seedlings and crop heads according to damage assessment data for recovery.
	pot plant local plants for commercial production such as vanilla, kava, sandalwood and distribute for free	Antherium and orchid workshop	Carry out rapid assessment on agricultural produce and livestock - with the help of the town officers and by ensuring all plantations are accounted for by the Ministry	Monitor and evaluate the outcome of the distributed seedlings to ensure ongoing development
	piggery, poultry production (produce a new hybrid of pigs)	piggery and poultry monitoring and evaluation		All the recovery efforts are based on projects from FAO, SPC and Chinese Government

	improve and secure agricultural livelihoods			Feeding the livestock and keeping crops use Ministry's own funding with some help from project money
	introduce new resilient string of plants for planting (kumala, taro etc)			Collect vanilla data as a major cash crop
	Established Agriculture Council (Quarantine, Livestock, Extension, Women Unit, China Project)			
	HACCP approved Quarantine inspection	Prepare goods for export to NZ by fumigation	Approve inspected goods for export	Monitor and evaluate all exported goods under Quarantine inspection
Department of Fisheries	Establish Vava'u Fishermen Council - all fishermen deep sea and reef fishermen to maintain and sustain resources	Wharf and slipway for fishermen partitioned off at the main Port of Refuge		Survey and report back on what damages are
	Establish area marine protected areas for islands to monitor due to lack of staff	Enforcement of Regulation - banning of bech de muir fishing due to data analysis	VHF radios were usually used by Fisheries twice a day for all fishermen to report back to Fisheries on what their catch of the day is and where they are located on the grid but since Marine and Ports has taken over, there is no radio	Monitor and evaluate ongoing projects
	Introduce aquaculture farming - pearl farming and seaweed farming	Fishermen and community trainings who have SMA (Special Management Area) 2 - Ovaka and Taunga	Fishermen were encouraged to purchase VMS so that Fisheries will know where they are at any given time for monitoring - if a vessels parks too long at a particular place - Fisheries radios in to check on the vessel	Send data to main office and to NEMO for recovery efforts (damages to vessels, pearls, seaweed)

	Pearl fishing association	Market survey - weighing of all fish caught and by classification of species (raw data collected and sent to Tongatapu for analysis and sent to SPC). Data also includes bech de meir when in season.	If all vessels are equipped with the proper equipment and if Fisheries has the proper communication equipment to track and monitor fishermen in order to give out constant weather updates	
	Register and licence commercial fishermen - tuna and snapper fishermen	Sea safety training for local fishermen	Send out radio announcements on cyclone issues to warn fishermen to take their boats in and conduct safety measures	
	Game fishing licence - communication, labor and tourism are involved in game fishing licencing	Project money - equip community fishermen with digital camera and uniform to also help in data collection (all they fish on a monthly basis)		
	bottom fishing - fisheries, marine and port, labour	Train the community in looking after their SMA (Good Governance training)		
		Consultation meetings with those who will have an SMA established - public awareness on policies (Fisheries Management Act 2002) and the opportunities and challenges of managing SMAs		
	All fish exports from Vava'u are sent to Tongatapu for HACCP approval			
Ministry of Infrastructure	Enforce building codes - difficult to enforce because people do not listen and adhere to the codes	Inspection of new buildings to adhere to the building code - but is not the case because people often build without adhering to the code	Take off road drainage tops	Assist with the IDA team from Tongatapu
	No trainings conducted	No trainings conducted	Ministry has no chain saws to aid in clearing roads but ask people	Provide initial data on loss damages to housings in order for the Tongatapu team to be deployed

	Need to upgrade and increase staff capacity		Wait upon the Governor's office for instructions	
	Need equipment for Marine services such as radios, boat, computers		All surveyors come from Tongatapu	
	Need senior staff who are capable and skilled		Report all damages and estimates to Tongatapu	
Ministry of Finance & National Planning	Tally all Government assets		Open for tabs from local businesses in order to fill gas tanks, stock up on supplies etc	Tally all Emergency spending to be sent to Tongatapu for processing
	Collate and log all assets from all Government Ministries			
Ministry of Lands Survey & Natural Resources	Provide geo-technical information in relation to hazards and vulnerability Provide GIS mapping	Provide geo-technical information in relation to hazards and vulnerability Provide GIS mapping		Contribute to post impact assesment processes
Ministry of MEIDECC (MET)	Carry out observation	Carry out observation	Carry out observation	Carry out observation and provide feedback to MET HQ (TBU)
	Relay advice to communities on weather updates and trends	Relay advice to communities on weather updates and trends	Relay advice to communities on weather updates and trends	Relay advice to communities on weather updates and trends and continue issuing bulletins
	Maintain all MET equipment to ensure proper functionality	Maintain all MET equipment to ensure proper functionality	Maintain MET equipment	Issue all clear and deactivate warnings and alerts but keep everyone informed
ENERGY	Promote renewable energy consumption through public education - awareness programs - increase solar usage in the outer islands and solar water pumps in the rural communities	Distribute solar lights and water pumps that are cyclone proof		Survey and report on loss and damage assessment

	Star system for high electric consumption goods - washing machines, refridgeators, air conditioning units etc	Conduct maintenance trainings on solar lights and pumps		Distribute spare lights etc
		Cyclone proof solar equipment		
INFORMATION	Ad hoc			
NEMO	Ad hoc			
ENVIRONMENT	Survey on terrestrial and marine data (baseline data available)	Trainings from projects in various fields of coastal management, waste management, ecosystem conservation, proposed and actual		Carry out initial damage assessment to compare with baseline survey for assessment
	Trainings on waste management	Conduct Environmental Impact Assessment of all projects carried out in Vava'u		
	Coastal management Plan and Survey			
	Ecosystem for marine and terrestrial			
	Participatory 3 Dimensional Map generation			
CC	Fund various projects within the line ministries and the communities			
	Fund consultants to carry out EIA studies			
COMM	List of licenced radio, television operators	Ensure operation of radio and television broadcasters
